EXAMINER'S AMENDMENT

Response to Amendment

1. Applicant's amendment filed 12/16/2005 has been entered and carefully considered.

Claim 1 has been amended.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The applicant has been amended as follows:

Claims 13-25 have been cancelled.

Reasons for Allowance

3. Claims 1-12 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter:

Please see the previous office action and applicant's argument filed on 12/16/2005 and 07/18/2005.

Regarding claim 1, none of the prior art of record teaches or suggests the combination of a method of autocalibrating a plurality of phase delayed clock signal edges, wherein the method comprising steps of: measuring delay spacings between said plurality of clock signal edges within a reference clock period; calculating desired

delay spacings from said delay spacings; calculating ideal signal edges from said desired delay spacings; and adjusting said clock signal edges to match said respective ideal signal edges; wherein said plurality of clock signal edges are selectively available. It is these limitations as they are claimed in the combination with other limitations of claim, which have not been found, taught or suggested in the prior art of record, that make these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
